

Title: Magic Petals Soft-Launches on iOS in the UK

**Summary: AdoreStudio, a casual game developer, has announced its launch of a new flower matching game with unique pivot action mechanics for mobile devices. The company has also revealed that Magic Petals will be free-to-play and launched primarily for tablets.**

The company has set out to revive its prominent title Magic Petals and release it on mobile devices, featuring all-new social and gameplay mechanics. The mobile attraction is announced to be released globally on iOS, primarily for iPads, and Android. The iOS version of the game is currently soft-launched in UK and the company encourages its fans to test the game out and ensure it is ready for full launch.

Magic Petals is set in the flourishing gardens of PetalVille with a relaxing atmosphere of bloomy meadows and the cutest fairy tale characters.
